---	---------------------------------------

1. PURPOSE & AIMS

1. The purpose of Baek Ho Taekwondo safeguarding policy is to ensure every child who is a registered pupil at our school is safe and protected from harm. This means we will always work to:

- Protect children and young people at our school from maltreatment;
- Prevent impairment of our children's and young people's health or development;
- Ensure that children and young people at our school grow up in circumstances consistent with the provision of safe and effective care;
- Undertake that role so as to enable children and young people at our school to have the best outcomes.

1.2 This policy will give clear direction to staff, volunteers, visitors and parents about expected behaviour and our legal responsibility to safeguard and promote the welfare of all children at our club.

1.3 Our club fully recognises the contribution it can make to protect children from harm and supporting and promoting the welfare of all children who are registered pupils at our club. The elements of our policy are prevention, protection and support.

1.4 This policy applies to all pupils, staff, parents, governors, volunteers and visitors.

1.5 Prior to implementing this policy we have considered a range of factors to help us identify and focus on the key issues for our club and community. We have reviewed our referrals, reason and considered local context and local issues as well as discussed as a instructor team what our key priorities are.

2. OUR ETHOS

2.1 The child's welfare is of paramount importance. Baek Ho Taekwondo will establish and maintain an ethos where pupils feel secure, are encouraged to talk, are listened to and are safe. Children attending classes will be able to talk freely to any instructor if they are worried or concerned about something.

2.2 Everyone who comes into contact with children and their families has a role to play in safeguarding children. We recognise that staff play a particularly important role as they are in a position to identify concerns early and provide help for children to prevent concerns from escalating. **All staff are advised to maintain an attitude of 'it could happen here' where safeguarding is concerned.** When concerned about the welfare of a child, staff members must always act in the **best interests** of the child.

3. All staff and regular visitors will, through training and induction, know how to recognise indicators of concern, how to respond to a disclosure from a child and how to record and report this information. We will not make promises to any child and we will not keep secrets. Every child will know what the adult will have to do with any information they have chosen to disclose.

2.4 Throughout our curriculum we will provide activities and opportunities for children to develop the skills they need to identify risks and stay safe. This will also be extended to include material that will encourage our children to develop essential life skills. Our curriculum develops resilience and speaking skills and encourages children to share thoughts and feelings.

2.5 At all times we will work in partnership and endeavour to establish effective working relationships with parents, carers and colleagues from other agencies in line with Working Together to Safeguard Children (2018) and Local Safeguarding Partners' Procedures.

3. ROLES AND RESPONSIBILITIES

Role	Name	Contact Details
Designated Safeguarding Lead (DSL)	Master Grade Jennie Lee	
Deputy DSL	Master Grade Sean Hayes	

3.1 It is the responsibility of *every* member of staff, volunteer and regular visitor to our school to ensure that they carry out the requirements of this policy and, at all times, work in a way that will safeguard and promote the welfare of all of the pupils at Baek Ho Taekwondo. This includes the responsibility to provide a safe environment in which children can learn.

The Designated Safeguarding Lead (DSL)

6. The Designated Safeguarding Lead is a senior member of staff, from the leadership team who takes lead responsibility for safeguarding and child protection within our organisation. The DSL will carry out their role in accordance with the responsibilities outlined in Annex B of *'Keeping Children Safe in Education'* DfE (2019);

7. The DSL will provide advice and support to other staff on child welfare and child protection matters. Any concern for a child's safety or welfare will be recorded in writing and given to the DSL.

8. During term time the Designated Safeguarding Lead and or a deputy will always be available for staff in the school or college to discuss any safeguarding concerns.

3.10 The DSL will maintain written records and child protection files ensuring that they are kept confidential and stored securely.

3.11 The DSL is responsible for ensuring that all staff members and volunteers are aware of our policy and the procedure they need to follow. They will ensure that all staff, volunteers and regular visitors have received appropriate child protection information during induction.

4. TRAINING & INDUCTION

4.1 When new staff join Baek Ho Taekwondo they will be informed of the safeguarding arrangements in place.

They will be provided with:

1. Safeguarding / Child Protection Policy

All staff are expected to read these key documents and fully **understand** their responsibility.

4.2

Part one of *'Keeping Children Safe in Education'* DfE (2019); In order to achieve this, we will ensure that:

- all members of staff will undertake appropriate safeguarding training on an annual basis.
- we will evaluate the impact of this training;
- all staff members receive regular safeguarding and child protection updates (for example, via email, e-bulletins, staff meetings), as required, but at least annually, to provide them with the relevant skills and knowledge to safeguard children effectively;

4.4 All regular visitors, temporary staff and volunteers to our school will be given a set of our safeguarding procedures; they will be informed of whom our DSL and alternative staff members are and what the recording and reporting system is. (See Appendix B).

4.5 The DSL, the alternative designated member(s) of staff and any other senior member of staff who may be in a position of making referrals or attending child protection conferences or core groups will attend appropriate training. In addition to formal training, the DSL will ensure that they update their knowledge and skills at regular intervals, but at least annually, to keep up with any developments relevant to their role.

4.6 Baek Ho Taekwondo will also undertake appropriate training to ensure they are able to carry out their duty to safeguard all of the children at our classes, seminars and other events

4.7 We actively encourage all of our staff to keep up to date with the most recent local and national safeguarding advice and guidance, Annex A of '*Keeping Children Safe in Education*' (2019) provides links to guidance on specific safeguarding issues such as Child Sexual Exploitation and Female Genital Mutilation. In addition, throughout the school year we will brief staff on key issues identified within Keeping Children Safe 2019.

Why safeguarding is important (New section)

At Baek Ho Taekwondo we feel it is important for children to receive the right help, at the right time to address risk and prevent issues from escalating. Research and serious case reviews have repeatedly shown the dangers of failing to take effective action. Examples of poor practice include:

- failing to act and refer early signs of abuse and neglect
- poor record-keeping
- failing to listen to the views of the child
- failing to re-assess concerns when situations do not improve
- not sharing information, delays in sharing
- lack of challenge to those who appear not to be taking action

Our policies and procedures aim to address all areas of poor practice and we ensure staff seek advice when unsure.

4.8 Specific Safeguarding Issues:

All staff should have an awareness of safeguarding issues, some of which are listed below. Staff should be aware that behaviours linked to the likes of drug taking, alcohol abuse, truancing and sexting put children in danger.

All staff should be aware that safeguarding issues can manifest themselves via peer on peer abuse. This is most likely to include, but may not be limited to, bullying (including cyberbullying), gender-based violence/sexual assaults and sexting. Staff should be clear as to the school or college's policy and procedures with regards to peer on peer abuse.

Expert and professional organisations are best placed to provide up-to-date guidance and practical support on specific safeguarding issues. For example, information for at NSPCC websites. Instructors can access government guidance as required on the issues listed below via GOV.UK and other government websites:

- children missing education
- child missing from home or care
- child sexual exploitation (CSE)
- bullying including cyberbullying
- domestic abuse
- drugs
- fabricated or induced illness
- faith based abuse
- female genital mutilation (FGM)
- forced marriage
- gangs and youth violence
- gender-based violence/violence against women and girls (VAWG)
- hate
- mental health
- missing children and adults
- private fostering
- preventing radicalisation
- sexting
- relationship abuse
- sexual violence & harassment between children in schools and colleges
- trafficking & modern slavery

*(For further information see appendix C-K)
(part 1 and annex A of Keeping Children Safe in Education 2019)*

5. PROCEDURES FOR MANAGING CONCERNS

(Working Together to Safeguard Children 2018)

We will ensure that policy and procedures are consistent with 'Working Together to Safeguard Children 2018' and Keeping Children Safe in Education 2019)

It is **not** the responsibility of instructors to investigate welfare concerns or determine the truth of any disclosure or allegation. All staff, however, have a duty to recognise concerns and maintain an open mind. Accordingly, all concerns regarding the welfare of pupils will be recorded and discussed with the designated senior person with responsibility for child protection (or another senior member of staff in the absence of the designated person) prior to any discussion with parents.

Identifying children and young people who may be suffering significant harm:

Instructors are well placed to observe any physical, emotional or behavioural signs which indicate that a child may be suffering significant harm. The relationships between staff, pupils, parents and the public which foster respect, confidence and trust can lead to disclosures of abuse, and/or school staff being alerted to concerns.

Definitions:

As in the Children Acts 1989 and 2004, a **child** is anyone who has not yet reached his/her 18th birthday.

Harm means ill-treatment or impairment of health and development, including, for example, impairment suffered from seeing or hearing the ill-treatment of another; **Development** means physical, intellectual, emotional, social or behavioural development; **Health** includes physical and mental health; **Ill-treatment** includes sexual abuse and other forms of ill-treatment which are not physical.

Abuse and Neglect. Knowing what to look for is vital to the early identification of abuse and neglect. **All** staff should be aware of the indicators of abuse and neglect so that they are able to identify cases of children who may be in need of help or protection. If staff are unsure they should **always** speak to the Designated Safeguarding Lead (or deputy)

Abuse, neglect and safeguarding issues are rarely stand-alone events that can be covered by one definition or label. In most cases, multiple issues will overlap with one another.

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting; by those known to them, or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

Physical Abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of or deliberately induces illness in a child.

Sexual Abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Emotional Abuse is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development.

It may involve conveying to children that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond the child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food and clothing, shelter (including exclusion from home or abandonment)
- protect a child from physical and emotional harm or danger
- ensure adequate supervision (including the use of inadequate caretakers)
- ensure access to appropriate medical care or treatment.

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Contextual Safeguarding (new section)

Safeguarding incidents and/or behaviours can be associated with factors outside school or college and/or can occur between children outside the school or college. All instructors should be considering the context within such incidents and/or behaviours occur. This is known as contextual safeguarding, which simply means assessments of

children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare.

Instructors must immediately report:

- any suspicion that a child is injured, marked, or bruised in a way which is not readily attributable to the normal knocks or scrapes received in play
- any explanation given which appears inconsistent or suspicious
- any behaviours which give rise to suspicions that a child may have suffered harm (e.g. worrying drawings or play)
- any concerns that a child may be suffering from inadequate care, ill treatment, or emotional maltreatment
- any concerns that a child is presenting signs or symptoms of abuse or neglect
- any significant changes in a child's presentation, including non-attendance
- any hint or disclosure of abuse from any person
- any concerns regarding person(s) who may pose a risk to children (e.g. living in a household with children present)

Staff are also encouraged to actively consider children who might present as vulnerable. (see appendix C)

Responding to Disclosure:

Disclosures or information may be received from pupils, parents or other members of the public. Baek Ho Taekwondo recognises that those who disclose such information may do so with difficulty, having chosen carefully to whom they will speak. Accordingly all staff will handle disclosures with sensitivity.

Such information cannot remain confidential and staff will immediately communicate what they have been told to the Designated Safeguarding Lead.

Principles

Staff will not investigate but will, wherever possible, elicit enough information to pass on to the Designated Safeguarding Lead in order that s/he can make an informed decision of what to do next.

Staff will:

- listen to and take seriously any disclosure or information that a child may be at risk of harm
- try to ensure that the person disclosing does not have to speak to another member of school staff
- clarify the information
- try to keep questions to a minimum and of an 'open' nature e.g. 'Can you tell me what happened?' rather than 'Did x hit you?'
- try not to show signs of shock, horror or surprise
- not express feelings or judgments regarding any person alleged to have harmed the child

- explain sensitively to the person that they have a responsibility to refer the information to the senior designated person
- reassure and support the person as far as possible
- explain that only those who 'need to know' will be told
- explain what will happen next and that the person will be involved as appropriate
- complete a cause for concern form (Appendix M)

5.1 Every member of staff including volunteers working with children at our organisation are advised to maintain an attitude of '**it could happen here**' where safeguarding is concerned. When concerned about the welfare of a child, staff members should always act in the interests of the child and have a responsibility to take action as outlined in this policy.

5.3 All staff are encouraged to report any concerns that they have and not see these as insignificant. Staff should **not** assume a colleague or another professional will take action and share the concern. On occasions, a referral is justified by a single incident such as an injury or disclosure of abuse. More often however, concerns accumulate over a period of time and are evidenced by building up a picture of harm over time; this is particularly true in cases of emotional abuse and neglect. In these circumstances, it is crucial that staff record and pass on concerns in accordance with this policy to allow the DSL to build up a picture and access support for the child at the earliest opportunity. A reliance on memory without accurate and contemporaneous records of concern could lead to a failure to protect.

5.4 It is *not* the responsibility of instructors to investigate welfare concerns or determine the truth of any disclosure or allegation. All staff, however, have a duty to recognise concerns and pass the information on in accordance with the procedures outlined in this policy.

5.5 The Designated Safeguarding Lead (DSL) should be used as a first point of contact for concerns and queries regarding any safeguarding concern in our club. Any member of staff or visitor who receives a disclosure of abuse or suspects that a child is at risk of harm must report it immediately to the DSL or, if unavailable, to the alternative designated person. In the absence of either of the above, the matter should be brought to the attention of the most senior member of staff.

5.6 All concerns about a child or young person should be reported without delay and recorded in writing or by completing a cause for concern form: (See appendix M).

5.7 Following receipt of any information that raises concern, the DSL will consider what action to take and seek advice from NSPCC or Police as required. All concerns, discussions and decisions made, and the reasons for those decisions should be recorded in writing. If in doubt about recording requirements, staff should discuss this with the Designated Safeguarding Lead.

Threshold Levels:

5.9 If, at any point, there is a risk of immediate serious harm to a child contact to NSPCC or Police should occur immediately. Anybody can make a referral. If the child's situation does not appear to be improving the staff member with concerns should press for re-

consideration by raising concerns again with the DSL. Concerns should always lead to help for the child at some point.

5.10 Staff should always follow the reporting procedures outlined in this policy in the first instance. However, they may also share information directly with Children's Services, or the police if:

- the situation is an emergency and the Designated Safeguarding Lead, their alternative are all unavailable;
- they are convinced that a direct report is the only way to ensure the pupil's safety.

5.11 Any member of staff, who does not feel that concerns about a child have been responded to appropriately and in accordance with the procedures outlined in this policy, should raise their concerns with the an appropriate agency. If any member of staff an appropriate agency with their concerns.

Early Help:

- 5.12 If early help is appropriate, the Designated Safeguarding Lead (or deputy) will generally lead on liaising with other agencies and setting up an inter-agency assessment, as appropriate.

Staff may be required to support other agencies and professionals in an early help assessment and, in some cases, where education is the fundamental factor, acting as the lead practitioner.

Early help assessments should be kept under review and referred to social care for assessment if the child's situation does not appear to be improving or is getting worse.

Peer on peer abuse:

5.13 We recognise that children are also vulnerable to physical, sexual and emotional abuse by their peers or siblings. This is most likely to include, but not limited to:

- bullying (including cyber bullying)
- physical abuse, hitting, kicking, shaking, biting, hair pulling or otherwise causing physical harm
- gender based violence/sexual assaults
- sexting (also known as youth produced sexual imagery)
- initiation / hazing type violence and ritual

Abuse perpetrated by children can be just as harmful as that perpetrated by an adult, so it is important to remember the impact on the victim of the abuse as well as to focus on the support for the child or young person exhibiting the harmful behaviour. Such abuse will always be taken as seriously as abuse perpetrated by an adult and the same safeguarding children procedures will apply in respect of any child who is suffering or likely to suffer significant harm; staff must never tolerate or dismiss concerns relating to peer on peer abuse.

Children with additional needs:

5.14 We recognise that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges and these are discussed in staff training. These additional barriers can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- children with SEN and disabilities can be disproportionately impacted by things like bullying - without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

Honour Based Violence / FGM:

5.15 At Baek Ho Taekwondo we recognise that our staff are well placed to identify concerns and take action to prevent children from becoming victims of Female Genital Mutilation (FGM) and other forms of so-called 'honour-based' violence (HBV) and provide guidance on these issues through our safeguarding training. If staff have a concern

regarding a child that might be at risk of HBV they should inform the DSL who will activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and children's social care.

FGM Duty:

5.16 Where FGM has taken place, there has been a mandatory reporting duty placed on teachers since 31st October 2015. Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015) places a statutory duty upon teachers in England and Wales, to report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18. How to make a report can be found in the following Home Office guidance: '[Mandatory Reporting of Female Genital Mutilation - procedural information](#)' (October 2015). (see appendix D)

Radicalisation:

5.17 We recognise that safeguarding against radicalisation and extremism is no different to safeguarding against any other vulnerability in today's society.

At Baek Ho Taekwondo, we will ensure that:

- Through training, staff, volunteers have an understanding of what radicalisation and extremism is, why we need to be vigilant and how to respond when concerns arise.
- There are systems in place for keeping pupils safe from extremist material when accessing the internet in our school by using effective filtering and usage policies.
- Through our curriculum, we will promote the spiritual, moral, social and cultural development of pupils.

6. RECORDS AND INFORMATION SHARING

6.1 If staff are concerned about the welfare or safety of any child their concerns should be passed to the DSL without delay.

6.2 Any information recorded will be kept in a separate named file, in a secure cabinet or These files will be the responsibility of the DSL. Child protection information will only be shared on the basis of 'need to know in the child's interests' and on the understanding that it remains strictly confidential.

6.3 Child protection information will only be kept in the file and this file will be kept up to date. Records of concern, copies of referrals, invitations to child protection conferences, core groups and reports will be stored here. All our safeguarding files will include; a chronology, contents front cover and will record significant events in the child's life.

All sensitive data is managed carefully via our GDPR policy and procedures.

7. WORKING WITH PARENTS & CARERS

7.1 Baek Ho Taekwondo is committed to working in partnership with parents/carers to safeguard and promote the welfare of children and to support them to understand our statutory responsibilities in this area.

7.2 When new pupils join our clubs, parents and carers will be informed that we have a safeguarding policy. A copy will be provided to parents on request and is available on the school website.

7.3 We are committed to working with parents positively, openly and honestly. We ensure that all parents are treated with respect, dignity and courtesy. We respect parents' rights to privacy and confidentiality and will not share sensitive information unless we have permission or it is necessary to do so in order to safeguard a child from harm.

4. We will seek to share with parents any concerns we may have about their child *unless* to do so may place a child at increased risk of harm.

7.5 In order to keep children safe and provide appropriate care for them, we require parents to provide accurate and up to date information regarding:

- Full names and contact details of all adults with whom the child normally lives;
- Full names and contact details of all persons with parental responsibility (if different from above);
- Emergency contact details (if different from above);
- Full details of any other adult authorised by the parent to collect the child (if different from the above).

Baek Ho Taekwondo will retain this information on the pupil file. We will only share information about pupils with adults who have parental responsibility for a pupil or where a parent has given permission and we have been supplied with the adult's full details in writing. If in any doubt about information sharing, staff should speak to the DSL or deputy DSL. Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare and protect the safety of children.

10. SAFER WORKING PRACTICE

10.1 All adults who come into contact with our children have a duty of care to safeguard and promote their welfare. There is a legal duty placed upon us to ensure that all adults who work with or on behalf of our children are competent, confident and safe to do so.

10.2 All staff will be provided with a copy of our school's Code of Conduct at induction. They will be expected to know our school's Code of Conduct and policy for positive handling and carry out their duties in accordance with this advice. There will be occasion when some form of physical contact is inevitable, for example if a child has an accident or is hurt or is in a situation of danger to themselves or others around them. However, at all times the agreed policy for positive handling must be adhered to.

10.3 If staff, visitors, volunteers or parent helpers are working with children alone they will, wherever possible, be visible to other members of staff. They will be expected to inform another member of staff of their whereabouts, who they are with and for how long

10.4 Guidance about acceptable conduct and safe practice will be given to all staff and volunteers during induction. These are sensible steps that every adult should take in their daily professional conduct with children. This advice can be found in 'Guidance for Safer Working Practices for Adults who Work with Children and Young People in Education Settings' (October 2019). All staff and volunteers are expected to carry out their work in accordance with this guidance and will be made aware that failure to do so could lead to disciplinary action.

11. MANAGING ALLEGATIONS AGAINST STAFF & VOLUNTEERS

11.1 Our aim is to provide a safe and supportive environment which secures the well being and very best outcomes for the children at our school. We do recognise that sometimes the behaviour of adults may lead to an allegation of abuse being made.

11.2 Allegations sometimes arise from a differing understanding of the same event, but when they occur they are distressing and difficult for all concerned. We also recognise that many allegations are genuine and there are some adults who deliberately seek to harm or abuse children.

11.3 We will take all possible steps to safeguard our children and to ensure that the adults in our school are safe to work with children. We will always ensure that the procedures outlined in the *local procedures* and Part 4 of '*Keeping Children Safe in Education*', DfE (2019) are adhered to and will seek appropriate advice from the Local Authority Designated Officer (LADO). The LADO can be contacted to request a consultation or to make a referral.

11.4 If an allegation is made or information is received about any adult who works in our setting which indicates that they may be unsuitable to work with children, the member of staff receiving the information should inform the DSL immediately. This includes concerns

relating to agency and supply staff and volunteers. Should an allegation be made against the DSL, this will be reported to an appropriate member of the organisation.

11.6 Any member of staff or volunteer who does not feel confident to raise their concerns with the appropriate agency / authority. Further national guidance can be found at: [Advice on whistleblowing](#). The [NSPCC whistleblowing helpline](#) is also available for staff who do not feel able to raise concerns regarding child protection failures internally. Staff can call: 0800 028 0285 – line is available from 8:00am to 8:00pm, Monday to Friday or via e-mail: help@nspcc.org.uk.

13. STATUTORY FRAMEWORK

This policy has been devised in accordance with the following legislation and guidance:

- *'Working Together to Safeguard Children: A guide to inter-agency working to safeguard and promote the welfare of children'*, DfE (2018)
- *'Keeping Children Safe in Education'*, DfE (2019)
- Local Safeguarding procedures
- Guidance for Safer Working Practices for Adults who work with Children and Young People in Education Settings (May 2019).
- 'What to do if you're worried a child is being abused', DfE (March 2015)
- 'Information Sharing: Advice for practitioners', DfE (March 2015)
- *'The Prevent Duty: Departmental advice for schools and childcare providers'*, DfE (2015)
- 'Mandatory Reporting of Female Genital Mutilation – procedural information', Home Office (October 2015)

Appendix A – Suspect child at risk action to take

Baek Ho Taekwondo

Channels of communication should be quick and clear:

**

Any member of staff who is unhappy with the joint decision made with the Designated Safeguarding Lead can consult with the Head Teacher/Chair of Governors or seek advice from key staff within the Local Authority.

Appendix B: Safeguarding Induction Sheet (For new or supply staff and regular visitors or volunteers)

We all have a statutory duty to safeguard and promote the welfare of children, and at our school we take this responsibility seriously.

If you have any concerns about a child or young person at Baek Ho Taekwondo you must share this information immediately with our Designated Safeguarding Lead (DSL) or one of the alternative post holders.

Do not think that your worry is insignificant if it is about hygiene, appearance or behaviour – we would rather you told us as we would rather know about something that appears small than miss a worrying situation.

If you think the matter is very serious and may be related to child protection, for example, physical, emotional, sexual abuse or neglect, you must find one of the designated professionals detailed below and provide them with a written record of your concern. A copy of the form to complete is attached to this and others can be obtained from the school office / staff room. Please ensure you complete all sections as described.

If you are unable to locate one of the designated professionals ask a member of the school office staff to find them and to ask them to speak with you immediately about a confidential and urgent matter.

Any allegation concerning a member of staff, a child's Foster Carer or a volunteer should be reported immediately to the Head Teacher. If an allegation is made about the Head Teacher you should pass this information to the Chair of the Governing Body. Alternatively, you can contact the Local Authority Designated Officer on Tel: 0191 277 4636. [NSPCC whistleblowing helpline](#) is also available for staff who do not feel able to raise concerns regarding child protection failures internally. Staff can call: 0800 028 0285 – line is available from 8:00am to 8:00pm, Monday to Friday or via e-mail: help@nspcc.org.uk.

The people you should talk to in school are:

Designated Safeguarding Lead (DSL):	Jennie Lee

Appendix C

Specific Safeguarding Issues

Vulnerability

Alongside the specific safeguarding issues listed below staff should consider children who may be particularly vulnerable to abuse and may require early help:

Factors that can increase vulnerabilities can include:

- any children with additional needs including;
- children with Special Educational Needs / Disabled children (SEND)
- children facing housing issues such as frequent moves and homelessness
- those living in families with chaotic lifestyles
- families with increased stress, parental mental health and/or drug and alcohol dependency
- those children living elsewhere, with friends, relatives, are in care or are leaving care
- Asylum Seekers / Refugees
- Those vulnerable to discrimination on the basis of their sexuality, race, religion, ethnicity or disability
- Children at risk from neglect or abuse including specific issues such as FGM, CSE, forced marriage, radicalisation and living in households with domestic abuse
- Children with communication difficulties
- Children without adequate parenting / supervision which could lead to abuse, risk-related behaviour and sexual exploitation.

This is not an exhaustive list but merely an example of vulnerabilities that staff must consider when identifying safeguarding concerns.

For more information on specific safeguarding issues please refer to Part 1 & annex A of Keeping Children Safe in Education 2019

Appendix C1 - Child Sexual Exploitation

The following list of indicators is not exhaustive or definitive but it does highlight common signs which can assist professionals in identifying children or young people who may be victims of sexual exploitation.

Signs include:

- underage sexual activity
- inappropriate sexual or sexualised behaviour
- sexually risky behaviour, 'swapping' sex
- repeated sexually transmitted infections
- in girls, repeated pregnancy, abortions, miscarriage
- receiving unexplained gifts or gifts from unknown sources
- having multiple mobile phones and worrying about losing contact via mobile phone
- having unaffordable new things (clothes, mobile phone) or expensive habits (alcohol, drugs)
- changes in the way they dress
- going to hotels or other unusual locations to meet friends
- seen at known places of concern
- moving around the country, appearing in new towns or cities, not knowing where they are
- getting in/out of different cars driven by unknown adults
- having older boyfriends or girlfriends
- contact with known perpetrators
- involved in abusive relationships, intimidated and fearful of certain people or situations
- hanging out with groups of older people, or anti-social groups, or with other vulnerable peers
- associating with other young people involved in sexual exploitation
- recruiting other young people into exploitative situations
- truancy, exclusion, disengagement with school, opting out of education altogether

- unexplained changes in behaviour or personality (chaotic, aggressive, sexual, mood swings, volatile behaviour, emotional distress)
- self-harming, suicidal thoughts, suicide attempts, overdosing, eating disorders
- drug or alcohol misuse
- getting involved in crime / police involvement, police records
- involved in gangs, gang fights, gang membership
- injuries from physical assault, physical restraint, sexual assault.

Appendix C2 - Child Criminal Exploitation

Criminal exploitation of children is a geographically widespread form of harm that is a typical feature of county lines. Criminal networks or gangs groom and exploit children and young people to carry drugs and money from urban areas to suburban and rural areas, market and seaside towns. Key to identifying potential involvement in county lines are missing episodes, when the victim may have been trafficked for purposes of transporting drugs. A referral to the National Referral Mechanism should be considered. Like other forms of abuse and exploitation, county line exploitation:

- can affect any child or young person (male or female) under the age of 18 years
- can affect a vulnerable adult over the age of 18 years
- can involve force and/or enticement-based methods of compliance and is often accompanied by violence or threats of violence
- can be perpetrated by individuals or groups, males or females, and young people or adults; and
- is typified by some form of power imbalance in favour of those perpetrating the exploitation. Whilst age may be the most obvious, this power imbalance can also be linked to gender, cognitive ability, physical strength, status and access to economic or other resources.

(KCSIE 2019)

Signs and Symptoms may include:

- persistently going missing from home or school
- being found out of area
- unexplained acquisition of money, clothes or mobile phone
- excessive receipt of calls and text messages
- relationships with older controlling individuals
- associated with gangs
- leaving home or care without explanation
- suspicion of self-harm, physical assault or unexplained injuries
- parental concerns
- significant decline in school performance

- significant changes in emotional wellbeing

Appendix D – Belief and Faith Related Abuse

D1: Female Genital Mutilation (FGM)

It is essential that staff are aware of FGM practices and the need to look for signs, symptoms and other indicators of FGM.

What is FGM?

It involves procedures that intentionally alter/injure the female genital organs for non-medical reasons.

4 types of procedure:

Type 1	Type 2	Type 3	Type 4
Clitoridectomy: partial/total removal of clitoris	Excision: partial/total removal of clitoris and labia minora	Infibulation entrance to vagina is narrowed by repositioning the inner/outer labia	All other procedures that may include: pricking, piercing, incising, cauterising and scraping the genital area.

Why is it carried out?

Belief that:

- FGM brings status/respect to the girl – social acceptance for marriage
- Preserves a girl's virginity
- Part of being a woman / rite of passage
- Upholds family honour
- Cleanses and purifies the girl
- Gives a sense of belonging to the community
- Fulfils a religious requirement
- Perpetuates a custom/tradition
- Helps girls be clean / hygienic
- Is cosmetically desirable
- Mistakenly believed to make childbirth easier

Is FGM legal?

FGM is internationally recognised as a violation of human rights of girls and women. It is **illegal** in most countries including the UK.

Circumstances and occurrences that may point to FGM happening

- Child talking about getting ready for a special ceremony
- Family taking a long trip abroad
- Child's family being from one of the 'at risk' communities for FGM (Kenya, Somalia, Sudan, Sierra Leon, Egypt, Nigeria, Eritrea as well as non-African communities including Yemeni, Afghani, Kurdistan, Indonesia and Pakistan)
- Knowledge that the child's sibling has undergone FGM
- Child talks about going abroad to be 'cut' or to prepare for marriage

Signs that may indicate a child has undergone FGM:

- Prolonged absence from school and other activities
- Behaviour change on return from a holiday abroad, such as being withdrawn and appearing subdued
- Bladder or menstrual problems
- Finding it difficult to sit still and looking uncomfortable
- Complaining about pain between the legs
- Mentioning something somebody did to them that they are not allowed to talk about
- Secretive behaviour, including isolating themselves from the group
- Reluctance to take part in physical activity
- Repeated urinal tract infection
- Disclosure

The 'One Chance' rule:

As with Forced Marriage there is the 'One Chance' rule. It is essential that settings / schools/colleges take action **without delay**

As KCSIE now states:

*'Under section 5B of the Female Genital Mutilation Act 2003 (as inserted by sect 74 of the Serious Crime Act 2015) places a statutory duty upon teachers, along with social workers and healthcare professionals, to report to the police where they discover that FGM appears to have been carried out on a girl under 18. Those falling to report such cases **will** face disciplinary sanctions'*

Further information:

www.gov.uk/government/publications/multi-agency-statutory-guidance-on-female-genital-mutilation

Appendix D2: So-called ‘honour-based’ violence

So-called ‘honour-based violence (HBV) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including:

- Female Genital Mutilation
- Forced Marriage
- Breast ironing

Abuse committed in the context of preserving “honour” often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBV are abuse (regardless of the motivation) and should be handled and escalated as such. If in any doubt, staff should speak to the Designated Safeguarding Lead (or deputy). Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of HBV, or already having suffered HBV.

D3: Forced Marriage

Forcing a person into marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into the marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some communities use religion and culture as a way to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

(KCSIE 2019, pg. 22)

Signs and symptoms may include:

- Students may appear anxious, depressed and emotionally withdrawn with low self-esteem.
- They may have mental health disorders and display behaviours such as self-harming, self-cutting or anorexia
- Sometimes they may come to the attention of the police having been discovered shoplifting or taking drugs or alcohol
- Often students’ symptoms can be exacerbated in the periods leading up to the holiday season.
- Students may present with a sudden decline in their performance, aspirations or motivation.
- They may be subject to excessive restrictions and control at home.

- Some students may not be allowed to attend any extra-curricular or after-school activities
- Girls and young women may be accompanied to and from school/ college, and even during lunch breaks.
- Some students may stop attending school or college
- Their homework is incomplete or appears rushed. This may be the result of being actively discouraged from doing it by family members.
- Students may do their homework late at night, which frequently shows in school because they are lethargic, unable to concentrate and have a general appearance of tiredness.
- Professionals being told that the student is out of the country.
- There are occasions when older siblings (usually brothers) and cousins keep a close eye on girls to make sure that they do not meet anyone or talk to friends.
- Conflict between the student and their parents about whether the student will be allowed to continue their education
- Family history of older siblings leaving education early and marrying early

How education professionals can help:

- Signposting, where appropriate, to forced marriage materials or where further support and advice can be accessed.
- Displaying relevant information e.g. details of the NSPCC Helpline, Child Line, and appropriate local and national support groups on forced marriage.
- Ensuring that a private telephone is made available should students need to seek advice discreetly.
- Educating teachers, lecturers and other staff about the issues surrounding forced marriage and the presenting symptoms – appropriate training should be included in continuing professional development (CPD).
- Referring students to an Education Welfare Officer, Pastoral Tutor, Learning Mentor or School Counsellor as appropriate.
- Encouraging young people to access appropriate advice, information and support.

(Multiagency practice guidelines: handling cases of forced marriage pg. 32-26)

Appendix E – Radicalisation

The Counter Terrorism and Security Act 2015 was published on 12th March 2015. Section 26 of the Act places a duty on schools in England (and Wales) to prevent people being drawn into terrorism. This duty applies to all schools, whether publicly-funded or independent, and organisations covered by the Early Years Foundation Stage framework.

Schools Leaders must:

- Establish or use existing mechanisms for understanding the risk of extremism
- Ensure staff understand the risk and build capabilities to deal with it
- Communicate and promote the importance of the duty
- Ensure staff implement the duty effectively

Other duties on schools include:

- Effective partnership working with other local agencies, eg. Safeguarding Partners (former LSCB) police, health, etc.
- Information sharing
- Maintaining appropriate records
- Assessing local risk of extremism (including Far Right extremism)
- Demonstrating they are protecting children
- Developing clear protocols for visiting speakers
- Safeguarding policies that take account of Local Safeguarding Partners' policies and procedures
- Training staff to give them knowledge and confidence
- Ensuring there is robust ICT protocols that filter out extremist materials
- School buildings must not be used to give a platform to extremists

Understanding and recognising risks and vulnerabilities of radicalisation

Children and young people can be drawn into violence or they can be exposed to the messages of extremist groups by many means. These may include through the influence of family members or friends and/or direct contact with extremist groups and organisations or, increasingly, through the internet. This can put a young person at risk of being drawn into criminal activity and has the potential to cause **Significant Harm**.

The risk of radicalisation is the product of a number of factors and identifying this risk requires that staff exercise their professional judgement, seeking further advice as necessary. It may be combined with other vulnerabilities or may be the only risk identified.

Possible indicators include:

- Use of inappropriate language
- Possession of violent extremist literature
- Behavioural changes
- Advocating violent actions and means;
- Association with known extremists
- Seeking to recruit others to an extremist ideology

Further information:

www.gov.uk/government/publications/prevent-duty-guidance

Appendix F: Private Fostering

Many people find themselves looking after someone else's child without realising that they may be involved in private fostering. A private fostering arrangement is one that is made privately (that is to say without the involvement of a local authority) for the care of a child under the age of 16 (under 18, if disabled) by someone other than a parent or immediate relative. If the arrangement is to last, or has lasted, for 28 days or more it is private fostering.

The Children Act 1989 defines a relative as a grandparent, brother, sister, uncle or aunt (whether of full blood or half blood or by marriage or civil partnership), or a step parent.

People become involved in private fostering for all kinds of reasons. Examples of private fostering include – Safeguarding Policy for Schools and Education Services - September 2016:

- Children who need alternative care because of parental illness
- Children whose parents cannot care for them because their work or study involves long or antisocial hours
- Children sent from abroad to stay with another family, usually to improve their educational opportunities
- Unaccompanied asylum seeking and refugee children
- Teenagers who stay with friends (or other non-relatives) because they have fallen out with their parents
- Children staying with families while attending a school away from their home area

There is a mandatory duty on the school to inform the Local Authority of a Private Fostering Arrangement. The Local Authority has a duty to check that the young person is being properly cared for and that the arrangement is satisfactory.

Further information:

www.gov.uk/government/publications/children-act-1989-private-fostering

Appendix G: Children Missing Education:

A child going missing from education is a potential indicator of abuse or neglect, including sexual exploitation, FGM, forced marriage or travelling to conflict zones. School staff will be alert to these safeguarding concerns when a pupil goes missing for an extended period, or on repeat occasions.

The school must notify the Local Authority of any pupil/student who fails to attend school regularly after making reasonable enquiries, or has been absent without the school's permission for a continuous period of 10 days or more. The school (regardless of designation) must also notify the Local Authority of any pupil who is to be deleted from the admission register because s/he –

- Has been taken out of school by their parents and is being educated outside the school system (e.g. home education)
- Has ceased to attend school and no longer lives within a reasonable distance of the school at which s/he is registered (moved within the city, within the country or moved abroad but failed to notify the school of the change)
- Displaced as a result of a crisis e.g. domestic violence or homelessness
- Has been certified by the School Medical Officer as unlikely to be in a fit state of health to attend school before ceasing to be of compulsory school age, and neither s/he nor his/her parent has indicated the intention to continue to attend the school after ceasing to be of compulsory school age
- Is in custody for a period of more than four months due to a final court order and the proprietor does not reasonably believe s/he will return to the school at the end of that period; or
- Has been permanently excluded

Our school will demonstrate that we have taken reasonable enquiries to ascertain the whereabouts of children that would be considered 'missing'. School absences may be a sign of abuse so please ensure you follow your attendance policy and report any concerns you may have.

Further information can be found in 'Children Missing Education: statutory guidance for local authorities – September 2016'

www.gov.uk/government/publications/children-missing-education

Appendix H: Peer on Peer Abuse:

At Baek Ho Taekwondo we recognise that children are vulnerable to and capable of abusing their peers. We take such abuse as seriously as abuse perpetrated by an adult. Peer on peer abuse will not be tolerated or passed off as part of “banter” or “growing up”.

In cases where peer on peer abuse is identified we will follow our child protection procedures, recognising that both the victim and perpetrator will require support.

We recognise that peer on peer abuse can manifest itself in many ways such as:

- Child Sexual Exploitation / Child Criminal Exploitation
- Bullying
- Radicalisation
- Abuse in intimate friendships / relationship abuse
- Children who display sexually harmful behaviour
- Gang associated and serious violence
- Technology can be used for bullying and other abusive behaviour

There are a number of factors that make children more vulnerable to peer on peer abuse: experience of abuse within their family, living with domestic violence, young people in care, children who go missing, children with additional needs (SEN and/or disabilities).

Research tells us girls are more frequently identified as being abused by their peers, and girls are more likely to experience unwanted sexual touching in schools. Boys are less likely to report intimate relationship abuse. Boys report high levels of victimisation in areas where they are affected by gangs.

There is an increasing evidence base emerging about the sexual exploitation of boys (both by adults and peers). We recognise that both boys and girls experience peer on peer abuse but they do so in gendered ways.

A difficult feature of peer on peer abuse is that the perpetrators could be victims themselves and possibly are being abused by their parents or caregivers.

Relationship abuse is unacceptable behaviour between two people. You don't have to be an 'official couple' to experience abuse and it doesn't matter what your relationship looks like; gay, straight or bi, or whether you're a girl, boy or have another gender identity.

Further information:

www.disrespectnobody.co.uk/relationship-abuse/what-is-relationship-abuse/

details some of the complicated reasons why children abuse other children:

- The child may have been emotionally, physically, or sexually abused themselves.
- The child may have witnessed physical or emotional violence.
- The child may have viewed sexually explicit movies, video games or other materials.
- The child may have just acted impulsively without meaning to harm anyone.
- Peer abuse must be taken extremely seriously for these reasons. It could be an indicator of even worse abuse going on in the child's home.

Preventing Peer on Peer Abuse:

Peer abuse can be prevented. Adults who work with children must be aware of the potential for abuse between children.

- Have clear robust policies on dealing with key issues such as cyber bullying.
- Ensure staff and students are aware of the policies.
- Identify any blind spots within the school
- Supervise and be aware of potential risky areas, tents in play areas etc
- Pay attention and monitor children who are sneaking off in areas out of view.
- Take steps to prevent isolation.
- Separate children if needed.
- Increase supervision during key times.
- If you suspect a child is abusing another, ensure you pass this onto a Designated Person.
- Where risk is identified have a student risk assessment in place

Appendix I: Sexually Harmful Behaviour

Sexualised Behaviour

Green Behaviours	Amber Behaviours	Red Behaviours
are part of safe and healthy sexual development which are: • displayed between children or young people of similar age or developmental ability • reflect curiosity, experimentation, consensual activities and positive choices • 'normal' but inappropriate within the school/classroom setting	are potentially outside safe and healthy development due to: • age or developmental differences • activity type, frequency, duration or context	are clearly outside safe and healthy development and: • involve much more coerciveness, secrecy, compulsiveness & threats • require action from school & other agencies

For further information of sexualised behaviour thresholds visit www.brook.org.uk

Sexual Violence & Harassment

Sexual violence and sexual harassment can occur between two children of any sex. They can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

- sexual harassment is 'unwanted conduct of a sexual nature' that can occur online and offline.
- Sexual harassment can include sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about appearance, sexual "jokes" or taunting; physical behaviour, such as: deliberating brushing against someone, interfering with someone's clothes
- online sexual harassment, which might include: non-consensual sharing of sexual images / videos and sharing sexual images and videos (both often referred to as sexting); inappropriate sexual comments on social media; exploitation; coercion and threats.
- it is more likely that girls will be the victims of sexual violence and more likely that sexual harassment will be perpetrated by boys.
- children with Special Educational Needs and Disabilities (SEND) can be especially vulnerable

We are aware of the importance of:

- making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up;
- not tolerating or dismissing sexual violence or sexual harassment as “banter”, “part of growing up”, “just having a laugh” or “boys being boys”; and
- challenging behaviours (which are potentially criminal in nature), such as grabbing bottoms, breasts and genitalia . Dismissing or tolerating such behaviours risks normalising them.

Upskirting (New section)

‘Upskirting’ typically involves taking a picture under a person’s clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm. This is now a criminal offence so staff should report concerns immediately to the Designated Safeguarding Lead.

Further information:

www.gov.uk/government/publications/sexual-violence-and-sexual-harassment-between-children-in-schools-and-colleges

Sexting

Sexting can be defined as ‘sending or posting sexually suggestive images, including nude or semi-nude photographs, via mobiles or over the internet.’

If staff become concerned about a ‘sexting’ issue they should not look at, share or print any indecent image and should:

Step 1: If a device is involved, confiscate it and set it to flight mode or, if not possible, switch it off/

Step 2: Seek advice - give the electronic device immediately to the DSL. Report your concerns following your normal child protection procedures.

Concerning factors that DSLs should look out for:

- ✓ Is there a significant age difference between the sender/receiver?
- ✓ Is there any external coercion involved or encouragement beyond the sender/receiver?
- ✓ Do you recognise the child as more vulnerable than usual i.e. at risk? Is the image of a severe or extreme nature?
- ✓ Is the situation isolated or has the image been more widely distributed?
- ✓ Have these children been involved in a sexting incident before?
- ✓ Are there other circumstances relating to either sender or recipient that may add cause for concern i.e. difficult home circumstances?

Remember: The production and distribution of sexting images involving anyone under the age of 18 is illegal and needs very careful management for all those involved.

Further information:

Appendix J: Trafficking & Modern Slavery

“Trafficking of persons” shall mean the recruitment, transportation, transfer, harbouring or receipt of persons, by means of the threat or use of force or other forms of coercion, of abduction, of fraud, of deception, of the abuse of power or of a position of vulnerability or of the giving or receiving of payments or benefits to achieve the consent of a person having control over another person, for the purpose of exploitation. Exploitation shall include, at a minimum, the exploitation of the prostitution of others or other forms of sexual exploitation, forced labour or services, slavery or practices similar to slavery, servitude or the removal of organs;

“Child” shall mean any person under eighteen years of age.

The Palermo Protocol establishes children as a special case. Any child transported for exploitative reasons is considered to be a trafficking victim, whether or not they have been forced or deceived. This is partly because it is **not considered possible for children to give informed consent**. Even when a child understands what has happened, they may still appear to submit willingly to what they believe to be the will of their parents or accompanying adults. It is important that these children are protected too.

Why are children trafficked?

Children are trafficked for many reasons, including sexual exploitation, domestic servitude, labour, benefit fraud and involvement in criminal activity such as pick-pocketing, theft and working in cannabis farms. There are a number of cases of minors being exploited in the sex industry. Although there is no evidence of other forms of exploitation such as ‘organ donation or ‘harvesting’, all agencies should remain vigilant

Children may be trafficked from other countries for a variety of reasons. There are a number of factors in the country of origin which might make children vulnerable to being trafficked.

The factors listed below are by no means a comprehensive list:

- poverty
- lack of education
- discrimination
- cultural attitudes
- grooming
- dysfunctional families
- political conflict and economic transition and
- inadequate local laws and regulations

Potential indicators

Once in the UK the child:

- receives unexplained/unidentified phone calls whilst in placement/temporary accommodation;
- shows signs of physical or sexual abuse, and/or has contracted a sexually transmitted infection or has an unwanted pregnancy
- has a history with missing links and unexplained moves
- has gone missing from Local Authority care
- is required to earn a minimum amount of money every day
- works in various locations
- has limited freedom of movement
- appears to be missing for periods
- is known to beg for money
- performs excessive housework chores and rarely leaves the residence;
- is being cared for by adult/s who are not their parents and the quality of the relationship between the child and their adult carers is not good; is one among a number of unrelated children found at one address
- has not been registered with or attended a GP practice
- has not been enrolled in school
- has to pay off an exorbitant debt, e.g. for travel costs, before having control over own earnings, is permanently deprived of a large part of their earnings by another person; and/or
- is excessively afraid of being deported

Further information:

www.gov.uk/government/publications/safeguarding-children-who-may-have-been-trafficked-practice-guidance

Appendix K: Domestic Abuse

The cross-government definition of domestic violence and abuse is:

Any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. The abuse can encompass, but is not limited to:

- psychological
- physical
- sexual
- financial
- emotional

Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. (KCSIE pg. 66)

Signs, Indications and Effects:

It is often difficult to tell if domestic abuse is happening because it usually takes place in the family home and abusers can act very differently when other people are around. Children who witness domestic abuse may:

- become aggressive
- display anti-social behaviour
- suffer depression or anxiety
- not do as well in school – due to difficulties at home or disruption of moving to as well as from refuges

Other signs and symptoms may include:

Withdrawn, suddenly behaves differently, clingy, problems sleeping, eating disorders, wets the bed, soils clothes, takes risk, misses school, changes in eating habits, obsessive behaviour, nightmares, drugs, alcohol, self-harm, thoughts of suicide

Source: www.nspcc.org.uk

Homelessness

Types of homelessness and bad housing

- living in temporary or emergency accommodation (such as B & Bs and hostels)
- hidden homelessness (staying with friends or family on a temporary basis or living in overcrowded conditions)

- Couch / Sofa surfing, moving from one place to another
- Being at risk of abuse or violence leading to homelessness or overcrowding

Impact of homelessness

- Practical issues include loss of possessions required for school e.g. books, uniform etc.
- Maybe unkempt due to lack of laundry services
- Physically exhausted due to sleeping arrangements
- Emotionally exhausted due to increased stress
- Signs of severe emotional trauma leading to emotional stress, anxiety
- Changes in behaviour or/and problematic behaviour
- Student may become withdrawn or aggressive
- If placed out of area they may arrive late or miss school due to transport / financial difficulties
- The student's ability to maintain relationships may be affected
- May 'stand out' more to peers, leading to feelings of alienation and self-consciousness
- Impact on attainment levels and ability to learn
